## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel V. Williams (Reg. No. 45,221) on September 17, 2007.

The application has been amended as follows:

- Claims 18-20 have been canceled.

### ***Allowable Subject Matter***

2. Claims 8-17, 21-23, 27 are allowed over prior art of record.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 8, the prior art fails to disclose or make obvious "such that image data is obtained which represents a combination of a luminance level of light which has penetrated through a portion of said sheet member at said first end of said sheet member and which is detected by a first of said photo detectors, and a luminance level of light which has been received by said first of said photo detectors directly from said light source by passing by said first end, and a luminance level of light which has penetrated through a portion of said sheet member at said second end of said sheet member opposite said first end and which is detected by a second

of said photo detectors, and a luminance level of light which has been received by said second of said photo detectors directly from said light source by passing by said second end, wherein a position of said first end of said sheet member is determined in relation to a position of said second end of said sheet member based on said combination of luminance levels” and in combination with the other recited limitations of claim 8. Claims 9-17, 21-23, 27 are allowed by virtue of dependency on the allowed claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
